RE: Delivery of equipment and Training for the Inventis Cello Audiometer

The department of Speech-Language Pathology at Umphumulo hospital would like to convey great thanks to the company for the provision of the audiometer.

The short training course provided by Londeka Luthuli and Chad Cochrane was greatly appreciated, completed in both a professional and friendly manner. The training was informative, beneficial and served to provide accurate protocols for setting up the Cello. The pair went into detail, ensuring that all queries were addressed.

We look forward to utilising this much needed piece of equipment.
