AUDIOLOGY DEPARTMENT

TO: The Director (AMHT)

23/04/2021

RE: Inventis Cello Audiometer Training

We as the audiology staff at ST Andrews Hospital would like to thank AMHT for the supply of the Cello audiometer. This piece of equipment has been vital in ensuring that hearing testing services are provided at clinic level reducing the number of patients seen at the hospital.

The training provided by Mr Cochrane and Ms Luthuli was exceptional. They explained everything well and answered all the questions we had. They have also been available to help us resolve issues remotely.

Thank you for the great work.

Kind Regards

Sindisiwe Selepe

Audiologist

St Andrew's Hospital
