To whom it may concern

This is a letter of appreciation to AMHT for the delivery and training conducted of the Cello Audiometer. The training and delivery was conducted in a professional and punctual manner. It was informative and helpful. The staff were friendly , knowledgeable and efficient.

We, at Madadeni Hospital are excited to use this equipment and are certain that it will benefit the patients. So far, the equipment seems easy to use and will provide valuable auditory information.

Thank you

Kind Regards,

A.Khan

Audiologist: Madadeni Hospital
