Re: Inventis Cello And Training

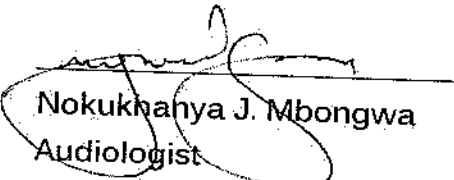

We, Audiologists at Estcourt District Hospital would like to extend our greatest gratitude in appreciating the gift (The Cello Inventis Audiometer) by the Department of Health.

This new piece of equipment will allow us to be able to perform and conduct tests which we were unable to perform due to some limitations such as ultra-high frequencies in order to determine the nature and degree of hearing loss and further management.

I trust is easy to use equipment based on the onsite training provided by Miss L. Luthuli, the Audiologist and Mr Chad, the Customer Support Manager which was very informative and beneficial to improve the quality of service and the lives of the clients we serve, as they it was a hands-on training with easy to follow demonstrations. This equipment will also minimize the paper work as it can save and retrieve clients' information and save time.

We would like to thank AMHT for their support visit and presentation on their different products/item in store for State Tender which will be of great beneficial to provide the effective and efficient service and thus improving the quality of services.

Kind Regards

Nokukhanya J. Mbongwa
Audiologist
