Re: Installation and training for the CELLO Diagnostic Audio machine

I would like to commend the manner and the level of professionalism shown by Ms.Luthuli during the training and installation of the machine. She was very patient and informative, especially since I am a Speech Therapist and such machines can pose a challenge to me.

I would also like to thank Mr. Chad for his unrelenting support and for making sure all arrangements are made and followed through. The machine was delivered on time as promised and training and set-up done immaculately.

I really appreciate all their assistance and this machine will do wonders for our outreach programmes.

Yours sincerely  
M. Luthuli  
Chief Speech Therapist  
KwaMashu CHC
