Subject: Equipment training review - AMHT

To: Whom it may concern

On the 23 March 2021 Londeka Luthuli and Chad Cochrane provided training on equipment that was purchased at AMHT to me and Wiedaad Bowers, who is an Audiologist at Kuruman Hospital.

Firstly, they were punctual and very professional on their arrival. We are extremely satisfied with the equipment that they brought as it was exactly what we wanted and had exceeded our expectations.

Secondly, they were very thorough with each machine, making it very easy to understand and user friendly. They went an extra mile and provided us each with practise to ensure that we would not experience any troubles using the equipment. Lastly, they came prepared with the necessary paperwork ready and were able to answer all the possible questions we had. Based on this experience with them I would recommend AMHT to other professionals, their service is excellent.

Kind regards,

Yonela Ziselo (Audiologist)
