

Annual Calibration / Firmware update of Medical & Audiological Equipment

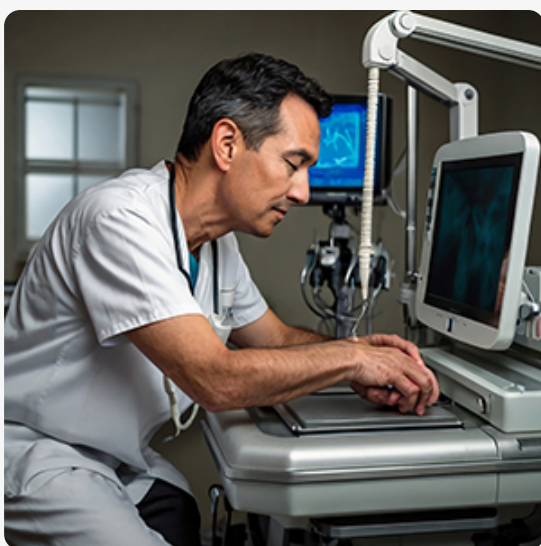

Annual calibration/ firmware update of Medical & Audiological equipment are legislated by the HPCSA as well as OCSA.

We are pleased to advise you that AMHT's lab is fully equipped with the necessary calibration equipment needed to service all Medical as well as Audiological equipment

The correct diagnosis of patients using reliable, calibrated equipment is crucial in Medical / Audiological Science.

Misdiagnosis as a result of unserviced equipment is ethically immoral plus has serious legal implication

The turnaround time for calibration is 5 days

On-site calibration

Available

On-site calibration at Occupational Clinics and hospital / Private Practice clinics are also available. Our Engineer is specialized with the latest firmware updates offered by the Suppliers. This ensures smoothness of the test procedures.

[Contact us](#)

Medical equipment that we specialize in:

1. EEG, ECG
2. Spirometer
3. Lung function tests
4. Ambulance equipment
5. Vision equipment
6. Thermometers
7. Urine analyzer
8. BP units etc

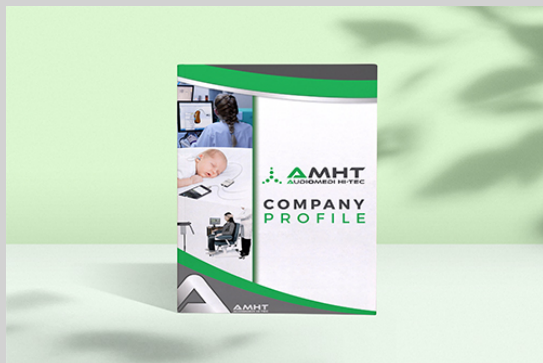

Audiology equipment that we specialize in:

1. Hi Pro,
2. Audiometers
3. Tympanometry equipment
4. REM, Vestibular equipment
5. OAE/ABR, ASSR
6. All electrophysiology equipment
