Maintenance & Service

We offer maintenance and service plans for calibration

With the rising cost of living, maintaining and servicing your booth / equipment is an added cost that can be reduced. Our lab had devised annual maintenance plans, which makes this critically important service affordable. We service all medical equipment, Occupational Health & Safety equipment, vision testers, defibrillators and ambulance equipment.

Request a quote today to have your booth calibrated onsite or your equipment to be serviced at our lab.

CONTACT AMHT

We pride ourselves that we will custom make your sound proof booth according to your specifications, creating your dream practice to serve your patients whilst achieving your passion and goals in Audiology.
